

## Instazorb 3 litre PSINSTAZORB3

Weight : 1.4kg

### FEATURES

- Fantastic absorbence capacity: up to 465%of its own weight
- Flexible-can be used in many different spill situations.
- Improved ISO 14001 compliance-you dispose much more spill product than absorbent!
- Lightweight means ease of deployment.
- Retains spills once absorbed.
- Leaves a safe non slip surface in use and no residue following clean up.
- Will not attack or corrode surfaces in use.
- Very quick to use -pour on the product and sweep with a stiff broom-no other equipment or waiting required!
- No MSDS or safety implications.
- No risk of sillicosis from airborne silica ust in use.

### APPLICATIONS

- Factories
- Workshops
- Indoor Areas
- Automobile workstations
- Lube Oil Plants
- Dispensing stations

#### Regulations and Compliance:

49 CFR 173.3(c)(2) - The area between a container and a salvage drum used for overpacking must have "sufficient cushioning and absorption material to prevent excessive movement of the damaged package and to eliminate the presence of any free liquid at the time the salvage drum is closed."

40 CFR 263.30(a) - In the event of a spill, transporters must, "take appropriate immediate action to protect human health and the environment."

29 CFR 1910.1450(e) - OSHA requires containment and clean-up materials for spills in laboratories to reduce occupational exposure to hazardous chemicals.

29 CFR 1910.120(j)(1) - Under an OSHA requirement, "DOT-specified salvage drums or containers and suitable quantities of proper absorbents shall be kept available and used in areas where spills, leaks, or ruptures may occur
