

FLEXION TANKS - PILLOW TANK

Flexion pillow tanks are like bladder tanks but a lesser profile. These tanks are often used for bulk storage for liquids and for transportation of fluids from one place to another. These tanks negate the possibility of fluids touching the soil or ground.

Pillow tanks generally come with accessories like : ground cover, bed liners, fluid pumping systems etc

FEATURES

- Easy to mantle and dismantle
- No tools required
- Small to large storage capacities available
- Variants available to store portable water to hydrocarbons.
- Ground Mat and cover available

APPLICATIONS

- Spill Response
- HAZMAT Operations
- Military Operations
- Potable (drinking) Water Tank
- Disaster Relief
- Firefighting
- Chemical Storage
- Wastewater
- Aquaculture Farming
- Remote Storage
- Fuel Storage
- Portable Water Tank
- Remediation Project spill response vessels with limited storage capacity
