

FLEXION TANKS - COLLAPSIBLE TANKS

The Flexion range of collapsible tanks consist of foldable aluminium structure with liner that is very useful in oil spill response, disaster management, environmental operations. These tanks are foldable and very easy to install on site. The aluminium frames are fabricated from marine grade aluminium which is suitable for harsh environments. These tanks can be made from 1 m3 to 50 m3 of storage capacity, having the same design across all variants. All tanks are folded to easy storage and transportation. They are available for storage in crates or bags.

FEATURES

- Easy to mantle and dismantle
- No tools required
- Small to large storage capacities available
- Variants available to store portable water to hydrocarbons to chemicals

- Ground Mat and cover available
- Modular design

APPLICATIONS

- Spill Response
- HAZMAT Operations
- Military Operations
- Potable (drinking) Water Tank
- Disaster Relief
- Firefighting
- Chemical Storage
- Wastewater
- Aquaculture Farming
- Remote Storage
- Fuel Storage
- Portable Water Tank
- Remediation Projects

Collapsible Cylindrical Tank Specification

PRODUCT CODE	FICTC1	FICTC2	FICTC3	FICTC5	FICTC10	FICTC15	FICTR20
VOLUME (Lit)	1000	2000	3000	5000	10000	15000	20000
DIA (M)	1.37	1.85	2.25	2.85	4.04	4.6	5.4
HEIGHT (M)	0.8	0.8	0.8	0.8	0.8	1	1
FABRIC SPECIFICATION	PVC, PU For oil and water storage						
WEIGHT (KG)	Weights will vary as per the tank structure Aluminium or PVC						
ACCESSORIES	1"/2" Ball valve, Roof top, Ground mat, Repring kit, Aluminium structure for oil tank and UPVC structure for water tank
